

# WOOL

## UNDERWEAR

### Wool, 100 % merino

Composition	100 % merino wool, 19.5 MY
Weight	190 g/m <sup>2</sup>
Treatment	Mulesing-free + „total easy care“ *

\* Our wool is machine washable and dryer safe – without any adverse effects on the fit, colours or softness of the fabric.

### Insulation effect

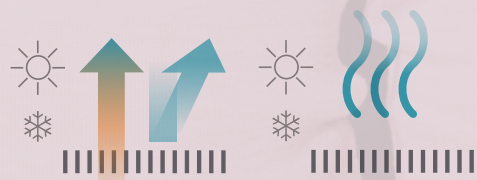

Wool is a natural material that insulates well, against both heat and cold. The curly wool fibres form small air pockets that provide insulation and allow for comfortable body temperature.

### Moisture absorber

Wool absorbs approx. up to 35% moisture without appearing wet. It will also feel warm all the time. When wool releases moisture in dry air, it will be pleasantly cooling.

### Tested for

Alkylphenoethoxylates	PASS
Azo dyes	PASS
Chlorophenols	PASS
Formaldehyde	PASS
Orthophenylphenol	PASS

All textiles in CeLaVi's wool series are OekoTex 100 certified and are of the highest class for baby and children's textiles that come in direct contact with the skin. The OekoTex label is the consumer's guarantee that the products are free from harmful substances.
